Our Leadership

Deepika Vuppalanchi MBA

Chief Executive Officer,
Board Director

Deepika Vuppalanchi, PhD is the founder and Chief Executive Officer of Syra Health Corp. Prior to starting Syra Health, Deepika obtained her doctoral degree in molecular biology and genetics from the University of Delaware. She then continued to work as a research scientist for renowned institutes such as the Indiana University School of Medicine.

Deepika's passion for healthcare influenced her decision to move to the private sector. Here she acquired expert-level experience in many healthcare areas such as healthcare strategy, education and outreach for major pharmaceutical industries, government agencies, and managed care entities.

Throughout her experience and education, she developed a deep understanding of the healthcare industry. As a leader of a women and minority-owned company, Deepika founded Syra Health with the goal of improving healthcare outcomes for all!

Sandeep Allam Ms

President and
Board Chairman

Sandeep Allam is the Managing Director and Board Chairman for Syra Health who brings many years of valuable business experience to the team. He has successfully created, managed, and grown numerous companies and organizations. In addition, Sandeep is an Executive Board Member for companies and organizations such as Blue Agilis and Innovation Digi.

Sandeep earned his Master of Science degree in Information Technology from Ferris State University in 2001. He then went on to serve as a Lead Technologist at Eli Lilly. From there he joined STLogics Corporation to be the Vice President of IT Services. Sandeep's business acumen led him to become the CEO of STLogics where he would help create multiple transformational companies.

Priya Prasad MBA

Chief Operating Officer &
Chief Financial Officer

Priya Prasad is the Chief Operating Officer for Syra Health. Priya received her MBA from the University of Massachusetts Boston, as well as a Master's degree in Environmental Science. While pursuing her MBA, Priya co-founded the holding company STLogics, where she was President for 17 years.

Her knowledge and experience enabled her to provide expert operational and corporate strategy that has led to the growth of companies like RADcube, SkillDemandEnergy, Hire Center, and Syra Health. Priya acts as a Board Member for the above companies where she leverages her experience to continue to provide exceptional operational strategy.

Who are we?

Safe, Secure, and Accessible

- Complies with ADA Accessibility requirements
- HIPAA compliant to ensure patient privacy
- End-to-end encryption
- Chatbot data stays protected
- De-identification of data keeps it anonymous.

Behavioral & Mental Health

Our aim is to provide the greatest quality Behavioral & Mental Health treatment to our partners by offering a wide range of services based on people-centered care and targeted at achieving the best healthcare outcomes.

Comprehensive Approach

Syra Health's behavioral and mental health solutions offer a holistic and comprehensive approach to support individual well-being. Our approach addresses various aspects of mental health, including assessment, therapy interventions, and access to telehealth therapists.

Technology Enabled -Care

Syra Health leverages technology to enhance the delivery of behavioral and mental health services. Through innovative digital platforms, individuals can access assessments, cognitive therapy interventions, and connect with therapists via telehealth, enabling convenient and accessible care from the comfort of their own homes.

Evidence-Based Support

Syra Health's behavioral and mental health solutions incorporate many evidence-based features. Through these features and a variety of resources and tools , individuals can feel more supported in improving their mental wellbeing.

Population Health Management

We define Population Health Management (PHM) as the process of assessing and analyzing healthcare and its delivery to create improvement for a population of individuals. We provide end-to-end solutions and strategies to improve the quality of care, access to care, health outcomes, and healthcare policies. The solutions will assist individuals in reaching their full health potential through preventative care, care coordination, and patient engagement.

Analytics as a Service

We leverages advanced analytics tools and techniques to analyze large volumes of population health data. It helps healthcare organizations make informed decisions and improve outcomes at a population level.

Epidemiology

Our team of experts provide cutting-edge data analysis and research on health and healthcare to tailor valuable insights for our partners. Through collaboration, data expertise, and our advanced epidemiological capabilities we are improving the results of our partners.

Health Equity Analytic Solutions

Our solutions target disparities from regional to organizational levels and provide interventions that promote equitable health and healthcare for all. We advocate for policies, initiatives, and practices that result in equitable health care access, delivery, and results for all population.

Health Education

Syra Health's mission is to address health disparities and gaps in knowledge by developing and implementing educational programs to promote global health equity, social determinants of health, and prevention.

Medical Communications

Though our medical communications expertise, we provide health education services in the form of scientific writing, patient education materials, and training on topics such as health equity, social determinants of health, and preventative health.

Patient Education

We specialize in determining patient educational requirements and identifying learning obstacles. Our content is available in a variety of formats to best meet your unique needs.

Healthcare Training

Syra Health offers comprehensive health education and training programs designed to empower healthcare professionals with the knowledge and skills they need to deliver exceptional care. From clinical skills to patient communication, infection control to medical terminology, our online and in-person training options cater to diverse learning needs.

Healthcare Workforce

Meeting healthcare workforce requirements can be a challenge in today's healthcare environment. At Syra Health, we focus on providing organizations with the committed healthcare professionals they need to achieve their workforce goals
